

```
class Multiplication {  
  
    public static void main(String[] args) {  
  
        int a = 35;  
  
        int b = 45;  
  
        int c = 25;  
  
        int product = a*b*c;  
  
  
        System.out.println(product);  
  
  
    }  
}
```

Output:

39375
